In Dotpay service, you can effect transactions with the following payment cards:

## Transfers and e-transfers

This service fully integrates online shopping with a bank account. At the time of finalising the purchase, all transfer details are filled in automatically and a customer does not have to manually enter the order number or value, account number, name of the shop or any other data required to make proper payment.

In Dotpay transactions can be effected via the following transfers:

Benefits of transfer payments:

- **fast** – the transfer is effected instantly, at the bank's booking hours,
- **cheap** – transfers as free of charge payment channel,
- **secure** – transactions are fully secured.

Also holders of the following accounts:

- and paying transfer / bank transfer from any bank

can effect online bank transfers for online shopping in your shop or service in a **prompt and secure** manner.

## Multicurrency payments

Accepting payments via credit cards in foreign currencies is a solution for e-merchants selling for customers all over the world. It is perfect to be used in:

- shops and Internet services aiming at foreign customers;
- shops and services which want to gain foreign customers paying with currencies.

Payments in Euro, USD, GBP are not exchanged into PLN currency which means that buying a product for USD 100 your customer credit card will be charged with the same amount, USD 100. Your Dotpay account will be debited with USD 100 without exchanging into PLN.

Thanks to electronic Dotpay payments foreign payments can be accepted with such cards: Visa, VisaElectron, MasterCard, Diners.

For more information, please contact Dotpay Sales Department.

## PayPal Payments in Dotpay service

PayPal is another electronic payment channel offered by Dotpay thanks to which e-shopping provides customers both comfort and security.

Implementing a new payment channel is quick and easy. The whole process does not need any integration. It is enough to perform a few easy steps (setting up a PayPal account, accepting it and verifying it as well as an access configuration).

PayPal is a system used by millions of users worldwide. It fulfills the expectations of e-commerce. It is a great solution for either buyers or merchants, users of international auctions or owners of Internet shops.

**Using the PayPal payments via Dotpay is completely free - Dotpay does not charge any fees or commissions for the handling of PayPal transactions.**
